

HD Set-Top Box Rescan

1. Select the "MENU" button on your remote to bring up the Main Menu.
2. Press the "OK" button to select the Channel Manager Menu.
3. Press the "OK" button to select the "Channel Search" option. When prompted, enter '0000' as your password.
4. Select NIT Search. Once you are in this menu, make sure your settings are configured correctly:
 - a. Frequency: 393000KHz
 - b. Symbol Rate: 5057Ksps
 - c. Modulation: 256 QAM
5. Make sure the "Signal" and the "Quality" bars are at a minimum of 70%.
6. Move the curser to "Start Scan" and press the "OK" button.
7. The channel scan should take 5 - 10 minutes. If you have trouble with your rescan, please contact our Help Desk at 03-6868-2345.
8. Once the search is complete, press "QUIT" to exit and return to programming.
